### Installation Step 1: Turn on the PC

Power on the PC and wait until Windows is running

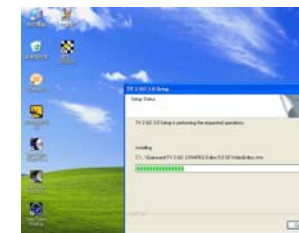

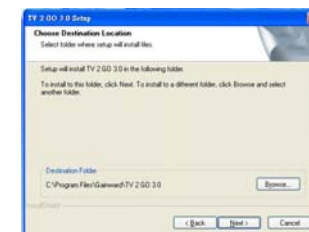

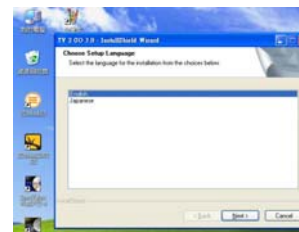

### Installation Step 2: Install Driver

1. Plug in the TV2GO into the USB slot
2. Windows should automatically ask for driver
3. Put the CD-ROM into the cd-rom drive
4. Direct the installation program to look for driver in the "EMPIA0910 For LG" directory in the CD-ROM

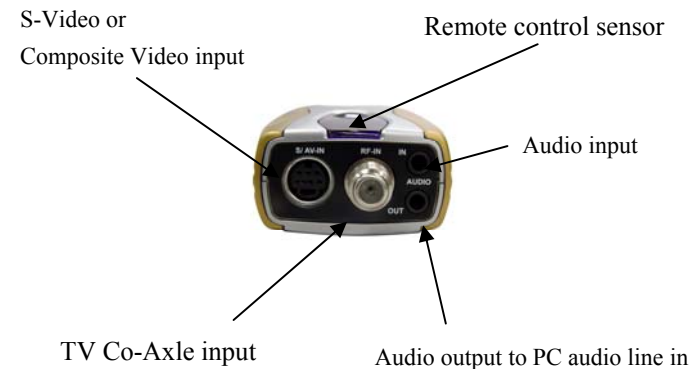

### Installation Step 3: Install the TVR Program

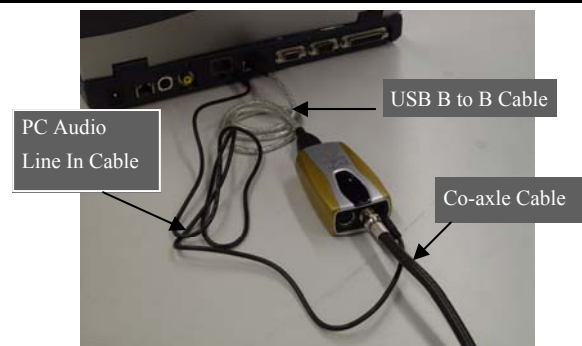

1. You need to install the drivers manually. Insert your driver CD disk into CD-ROM and run it.
2. Please choose setup language then click on "Next" and follow the instructions on the screen.
3. To finish the installation select "Finish", then enter the CD key. Later you will also find an icon on desktop area to launch the TV2GO.

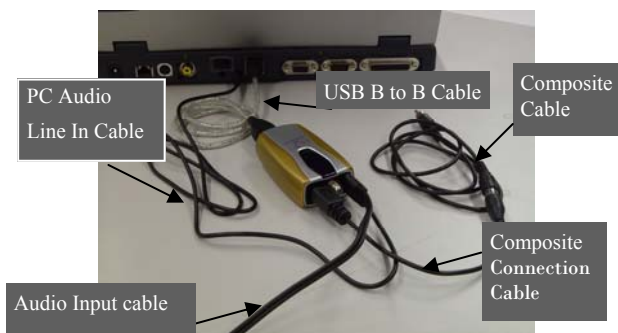

### Installation Step 4: Install Driver

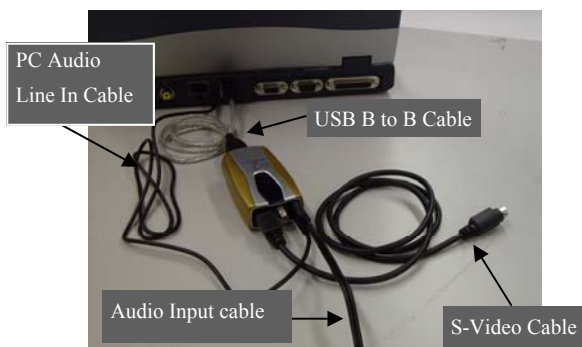

## Installation Step 5: Connect the Video input

### Full Screen

Change video window into full

## TV Plus program

Please refer to the TV\_Plus directory in the CD-ROM for TV Plus user manual.

## Trouble Shooting

- TV2GO will only support Windows XP and Windows 2000. It will not run under Windows 98, Windows 95 or Windows ME.
- TV2GO has two types of USB connector: USB adapter and USB cable. Please use USB cable if there is interference problem with USB adapter.
- TV2GO remote control sensor is located on top of the unit. Please aim the remote control at that location for best result.

## System Requirement

### PC or Notebook with

- Intel or compatible processor
- minimum of 64 MB RAM
- CD-ROM
- one free USB 2.0 port \*\*\*
- sound card with Line-in input connector
- MS Windows 2000, MS Windows XP, MS Windows MCE

\*\*\* Note: This product will also work on PC systems with USB 1.1, however at low video quality and video frame rate
